

2018 VOYAGERS WEEK

## Culinary Pursuits

**Trip Leader: Laretta Hyde**

All Grades | Cost Estimate: \$380 | School Day Hours

Love to eat? Is hanging out in a warm kitchen that smells like homemade bread your idea of heaven? If you answered yes to these questions, this might just be the *Voyagers Week* adventure for you. Come spend the week journeying around the Sound introducing your taste buds to new flavor sensations AND learning cooking and kitchen skills that will serve you well for the rest of your life. Not only will we be cooking up a storm, we will be touring fun specialty markets and visiting a very delicious factory in Fremont that we might never want to leave. This is an adventure that generally runs the course of a regular school day, so if you love having fun-filled days, but also like sleeping in your own bed at night, then let's learn and play and cook together during this special week.

## UTAH WILD

**Trip Leader: Ethan Cudaback & Zoë Hughes**

Grades 6-8 | Cost Estimate: \$1,300 | 5-6 Days

Utah boasts some of the most beautiful, unique, and diverse natural scenery in the world. Mountain ranges turn into vast canyons turn into surreal landscapes of brick-red spires and arches, leaving spectators with thoughts of other planets. Base camp for our adventure will be Moab, Utah. From Moab we will visit:

**ARCHES NATIONAL PARK:** Arches lies north of Moab. Bordered by the Colorado River in the southeast, it's known as the site of more than 2,000 natural sandstone arches, such as the massive, red-hued Delicate Arch in the east. Long, thin Landscape Arch stands in Devils Garden to the north. Other geological formations include Balanced Rock, towering over the desert landscape in the middle of the park.

**CANYONLANDS NATIONAL PARK:** Canyonlands is known for its dramatic desert landscape carved by the Colorado River. Island in the Sky is a huge, flat-topped mesa with panoramic overlooks. Other notable areas include the towering rock pinnacles known as the Needles, the remote canyons of the Maze and the Native American rock paintings in Horseshoe Canyon.

**BEARS EARS NATIONAL MONUMENT:** Bears Ears monument park protects over a million acres of public land surrounding the landmark pair of mesas, *Bears Ears*, as well as protecting the Native American ancestral homelands.

Hikes abound in picturesque arches, canyons, ancient petroglyphs and archeological sites, dinosaur fossils, and our choice of tours including mountain biking, zip lines, horse back riding, and night sky viewing.

# Oregon Shakespeare Festival

**Trip Leaders: Todd Wooster & Alisara Martin**

Grades 5-8 | Cost Estimate: \$745 | 5 Days

**The game's afoot!** For this trip, we will have the distinct pleasure and fortune to travel to the world-famous Oregon Shakespeare Festival (OSF) in Ashland, Oregon. The OSF is a respected theater company that has been producing Shakespeare's plays (*in the oldest replica Elizabethan theater in the Western hemisphere!*) for more than 80 years.

**We will view four plays:** firstly, there's Shakespeare's *Othello*, a dramatic and tragic tale of jealousy and deception; and secondly, we have Shakespeare's *Henry V*, an exciting and action-packed account of a young king's rise to power. For our last two shows, we will see a production of Jane Austen's classic tale of sisters in love, *Sense and Sensibility*, and then *Destiny of Desire*, a new play described by OSF as a tale about "family, greed and the mad pulse of love." What a lineup!

**Ay, but mark! I bear thee even better news:** not only will we see four incredible plays, but we will also work with the actors and producers themselves!

**THE SHOW BEHIND THE SHOW:** We will discover what's behind the shows on a walking tour with a company member, after a brief talk about the history of the Festival and the intricacies of operating a theatre.

The tour includes theatre spaces, backstage, Green Room and other behind-the-scenes areas.

**THEATER WORKSHOP:** We will have an exciting opportunity to work with company members to explore themes, characters and language of the plays in two hours of on-your-feet exercises.

**DESIGN WORKSHOP:** What inspires the designs for this season's productions? What factors influence the designers' choices? These questions and more are answered in a one-hour exploration of the creative process.

**PROLOGUES:** Prologues introduce characters, themes, language and other background information and are offered for every play in the season. We will attend Prologue workshops for each play, paying special attention to challenging themes or complex language.

This Voyagers Week experience will be an action-packed, thought-provoking, word-slinging, fun-filled trip. We will drive down on Monday, March 12, and stay in a local rental house. On top of being steeped in all of this theater, we'll also take some time to explore the town before turning for home on Friday, March 16.

# Bodies in Motion

**Trip Leader: Russ "Profe" Ray with Jaffrey Clark & Andrea Braganza**

All Grades | Cost Estimate: \$350 | 5 Days, 1 Overnight

Let's move, explore, and test our physical abilities! This week-long full body adventure will include activities that stretch our minds and challenge our bodies. We'll journey to Vashon's own skate park, hit the dirt at Dockton Park's newest bike trails, head off island to try our hands (*literally*) at a Climbing Wall, trek through the snow for a Cross Country skiing outing, search out an elusive bouncy gymnasium for acrobatic feats, and head to the hills for a day hike and overnight campout!

## Trash to Fashion

**Trip Leader: Joleen McCauley**

All Grades | Cost Estimate: \$280 | 5 Days

Do you have an interest in designing clothes or outfits? Do you also care about the earth? These two passions collide in this **Trash to Fashion** *Voyagers Week*! We will be looking at the cycle that includes where our stuff comes from and where it goes when we are done with it. We will talk with professionals in the fashion world who are helping big name clothing retailers cut down on their environmental footprint. They will share what they are doing to help these companies on their mission to become more mindful in their practices. The big fun comes in when we invite a working clothing designer in to help us create couture outfits from bits and pieces of all things recycled. Think of a blouse made from braided plastic bags and rows of ruffled newspaper cascading down a skirt leaving a train of newsprint ruffles three feet behind you! Imagine bubble wrap painted silver and turned into a mini dress with earrings and shoes embellished with painted bottle caps to round out the outfit. Maybe you will create a men's suit or jacket embellished with cd's cut into diamond shapes. The possibilities are endless! We will have a chance to present our amazing designs on the final day in a Trash To Fashion Runway show!
